

# Schedule

This course schedule **will** change during the semester. Ad hoc topic changes (unannounced) may be based on current events or class pace and interest. Announcement of any meeting changes will be distributed via Discord; please ensure that you are monitoring the #announcements channel there.

Midterm and final examinations are tentatively scheduled for Friday 4/4 1–3pm, and Wednesday 5/7, 9am–12pm, respectively.

|          | M/W                     | Tu/Th   | Potential topics  | Deliverable                                |
|----------|-------------------------|---------|---|--|
|          | <b>M</b><br><b>1/20</b> |         | <b>No class (MLK Holiday)</b>   | —  |
| <b>1</b> | W 1/22                  | Tu 1/21 | <i>Course introduction</i><br>Market returns and risk<br>Implied and realized volatility<br>Calculations in Excel                                     | <a href="#">HW0</a><br>(due Thursday 1/23) |
| <b>2</b> | M 1/27                  | Th 1/23 | <i>Python demo; Introduction to data</i><br>Relative performance and hedging<br>Performance attribution<br>Python demo (Copilot)                      |  |
| <b>3</b> | W 1/29                  | Tu 1/28 | <i>Financial questions and financial analysis</i><br>Class survey<br>Return skewness and binary returns<br>CRSP<br>Bloomberg<br>Intro. to Forecasting | <a href="#">HW1</a>                        |
| <b>4</b> | M 2/3                   | Th 1/30 | <i>Python introduction</i><br>Binomial trees and binomial distribution<br>Python and the notebook ecosystem   |  |
| <b>5</b> | W 2/5                   | Tu 2/4  | Following and explaining financial news<br>Python arithmetic<br>booleans<br>functions   | <a href="#">HW2</a>                        |
| <b>6</b> | M 2/10                  | Th 2/6  | Python variables and types  |  |
| <b>7</b> | W 2/12                  | Tu 2/11 | Order speed and execution quality<br>Monte Carlo simulation<br>Initialize/loop/filter<br>Random numbers   | <a href="#">HW3</a>                        |

|           | M/W            | Tu/Th          | Potential topics   | Deliverable                                 |
|-----------|----------------|----------------|--|---|
|           | <b>M 2/17</b>  |                | <b>No class (Presidents Day Holiday)</b>   | —   |
| <b>8</b>  | <b>Tu 2/18</b> | Th 2/13        | <i>Financial modeling with data</i><br>Record highs as binary trees<br>Duration and the Gordon Growth model<br>Non-uniform random variables                  |   |
|           |                | <b>Tu 2/18</b> | <b>Monday classes meet on Tuesday (Babson Monday)</b>  | —   |
| <b>9</b>  | W 2/19         | Th 2/20        | <i>Monte Carlo simulation</i><br>Brownian motion   | HW4   |
| <b>10</b> | M 2/24         | Tu 2/25        | <i>Pandas introduction</i><br>Prices and returns   |   |
| <b>11</b> | W 2/26         | Th 2/27        | <i>Midterm project presentations</i><br>Series and DataFrame, index  | Midterm group project<br>(due Tuesday 2/25) |
| <b>12</b> | M 3/3          | Tu 3/4         | Dividends and closing price adjustments<br>Questions ↔ Algorithms ↔ Code<br>CSV imports, method chaining   | HW5   |
| <b>13</b> | W 3/5          | Th 3/6         | <b>Attendance required:</b> Professional ethics  | Ethics discussion prep.                     |
| <b>14</b> | M 3/10         | Tu 3/11        | Random variation and sampling error<br>Autocorrelation and return momentum<br>Series methods, Visualizing distributions                                      |   |
| <b>15</b> | W 3/12         | Th 3/13        | Demand curves and price elasticity<br>Margins/markups and the competitive environment<br>Commodities prices (FRED)<br>CSV imports, exploratory data analysis | HW6   |
|           | <b>M 3/17</b>  | <b>Tu 3/18</b> | <b>No class (Spring Break)</b>   | —   |
|           | <b>W 3/19</b>  | <b>Th 3/20</b> | <b>No class (Spring Break)</b>   | —   |
| <b>16</b> | M 3/24         | Tu 3/25        | Mortgage data (FRED)<br>Term structures<br>FRED API<br>EDA and visualization   |   |

|    | M/W               | Tu/Th        | Potential topics   | Deliverable  |
|----|-------------------|--------------|--|--|
